Dear colleagues,

The Gordon Research Conference on Physical Metallurgy will take place again at the University of New England, July 23-28, 2017. This year's focus will be on "Frontiers of Quantification and Predictive Capability in Physical Metallurgy". You can find all information including the preliminary program at the following link:

<https://www.grc.org/programs.aspx?id=13797>

The weekend before, the Gordon Research Seminar on Physical Metallurgy provides a unique forum for graduate students, post-docs, and other scientists with comparable levels of experience and education to present and exchange new data and cutting edge ideas:

<https://www.grc.org/programs.aspx?id=17341>

Application for this GR conference must be submitted by June 25, 2017. Contributions to the GR seminar are due by April 22, 2017.

Best regards,

Peter Gumbsch
